About Oikos

The value of quality grows with continuous innovation and projects.

"Oikos" means "house" in Greek and is a custom door specialist company established in 1990. Oikos Venezia designs, manufactures and tests custom safety doors that meet high quality standards from its headquarters in Gruaro, 50 km from Venice. During the production process, soundproofing and insulation, airtightness and water tightness are verified, and Anti-burglar (Class 3 and 4), which blocks intrusion, has been certified for security. Oikos aims to provide a range of aesthetic and technical solutions to architects and interior designers. Products Made in Italy with sophisticated designs are also popular in Europe, Asia, and North and South America.

Synua

The door for large dimensions, with vertical pivot operation and installation coplanar with the wall. The perfect combination of technology and design.

Door with adjustable pivot hinges with:

- Maximum feasible measurements 3000x6200mm
- Other measurements on request
- Version with heat barrier frame and leaf on request
- Motorized electronic lock with integrated access control system on request
- Automatic opening with floor motor for doors weighing up to 560 kg on request

- Door profiles and frame cover in aluminum painted RAL 8022
- Motorized electronic lock with integrated access control system on request
- Version with heat barrier frame and leaf on request

Arckey System

The lock at the service of architecture Integrated access management system with electronic opening through Oikos Arckey App, born from a twenty-year collaboration with Iseo Serrature an Italian company leader in the production of locking systems.

- Opening with smartphone
- Keyless opening
- Motorized opening
- Only the administrator can enable or disable users
- Access Control
- No masonry and cabling work
- Management of up to 300 users
- Office function
- Battery powered
- Reading of the last 1000 events
- Opening by time bands
- Office mode with time band opening control
- Access management with invitations (e.g. Residence, B&B)

Smartphone

Oikos Arckey app

The Oikos Arckey App is the technological heart of the Arckey access management and control system. The opening of the door with remote button, the user management, and the control of access flows are just some of the functions allowed by the management through App. By bringing the Admin Card closer to the lock, the system administrator gains full control over its functions through the App.

Card Reader

Door opening from outside

The Arckey system allows, standard supplied, the opening of Oikos' safety door through the App for smartphones. Upon customer request, it can be equipped also with a touchpad, a card reader, a transponder or a fingerprint reader.

Transponder

Touchpad

Fingerprint Reader
